Bison IT Services AG

Professional IT environments need partners with extensive know-how and the ability to work with great precision. As a full service IT provider, Bison IT Services (Bison ITS) offers you the right expertise and professional services.

The core competencies of Bison ITS lie in the areas of consulting, engineering, and operations of IT infrastructures. Our solution portfolio comprises networks, storage, virtualisation, security, unified communications, retail and digital signage solutions.

Qualified specialists in software, systems and communication technology advise customers with a view to an adaptable and future-proof IT environment.

Our comprehensive service desk and in-house repair centre guarantee maximum availability and rapid response times.

As a strong partner, we offer customers comprehensive advice, take a targeted approach to implementing projects and provide long-term support. Our customised IT solutions ensure that customers can master their business challenges successfully. We optimally align the underlying IT processes with our customers' needs.

Core competences

Consulting

The markets of today are subject to rapid – and often surprising – changes. Companies and their managers therefore face a myriad of challenges. Bison ITS is a strong partner who will support you in the planning and realisation of your IT and retail projects. Our employees' many years of experience form the basis for highly competent consulting.

We understand your requirements and guide you through the implementation process.

We predominantly focus on the areas of IT strategy and IT architecture, system integration, retail solutions and digital signage.

Engineering

Bison ITS offers a wide range of hardware and software products, all tailored to the individual needs of customers. These cover the areas of communication, virtualisation, storage, security, migration, retail and digital signage.

Operations

The requirements placed on IT services are many and varied. Bison ITS is a strong partner for outsourcing and outtasking, care services, support services, repair services, retail and digital signage services. Our flexible cooperation models enable our customers to determine the scope of the project and how the tasks should be defined.

Retail and Digital Signage Solutions

Bison ITS provides a one-stop service for retail and digital signage solutions. For the areas of point of sale systems, mobile data entry, product pricing and labelling, scanning and digital signage, we offer comprehensive solutions – tailored to the individual needs of our customers.
